Education

Jadavpur University, Kolkata

Bachelor of Technology

Nov 2023 – Dec 2027

CGPA - 7.7

Basanti High School, Kolkata

Higher Secondary

Dec 2020 – Dec 2022

12th Marks - 96%

Experience

Jadavpur University CMATER Lab

Data Analyst Research Intern

May 2025 – April 2026

Kolkata

- Conducted exploratory data analysis (EDA) on 1,097 lung CT scan images across three classes (benign, malignant, normal), identifying class distributions and potential data imbalances to guide preprocessing strategies.
- Evaluated model generalization across three medical datasets (brain MRI, chest X-ray), achieving 95.54 accuracy and demonstrating robust cross-domain feature transferability.

Freelancer

Frontend Engineer

Dec 2025 – Present

Kolkata

- Developed responsive and user-friendly web applications for multiple clients, ensuring cross-browser compatibility and optimal performance
- Translated UI/UX designs into high-quality, reusable code using modern frontend technologies. Implemented efficient layouts, components, and state management to enhance user experience and application scalability

Projects

Myntra E-commerce Website Clone | *HTML, CSS, Javascript*

March 2026

- Developed a frontend clone of the Myntra e-commerce platform, implementing product listings, navigation components, and interactive UI using HTML, CSS, and JavaScript.
- Built dynamic features such as product browsing and cart functionality using JavaScript with DOM manipulation for real-time user interactions.
- Designed a responsive user interface with structured layouts and modern styling to replicate real-world e-commerce website design patterns.

TailorCV.ai | *HTML, CSS, Javascript*

November 2025

- Designed and developed the frontend interface for an AI-powered resume optimization platform, creating responsive pages using HTML, CSS, and JavaScript for seamless user interaction. Live Demo
- Built intuitive UI components for resume upload, job description input, and result display, enabling users to easily interact with the backend LLM-powered system.
- Integrated frontend with FastAPI backend APIs, contributing to a deployed product that attracted 50+ users within the first week of launch.

Inventory Management System | *FastAPI, PostgreSQL*

January 2026

- Developed a scalable inventory management system with full CRUD operations and multi-field search over product data
- Built RESTful APIs using FastAPI with asynchronous processing and automatic OpenAPI documentation
- Designed normalized PostgreSQL schemas to ensure data integrity and optimize query performance
- Integrated backend with frontend via Jinja2 templates and managed database interactions using SQLAlchemy / psycopg2

Technical Skills

Languages: Python, C, HTML, CSS, JavaScript, SQL

Developer Tools: VS Code, Google Cloud Platform

Technologies/Frameworks: React, Fastapi, postgres sql, PowerBI, Git, Data Structures and Algorithms, Excel, NumPy, Pandas, Matplotlib, Seaborn

Leadership / Extracurricular

- Event Lead at Data Drift**, the data analytics event at Srijan: University's Annual Techno Fest - Developed problem statements, evaluated submissions, and supported end-to-end coordination, attracting 500+ participants from across the country.
- Technical Lead at Corporate Clash** - Framed case studies and evaluated submissions. Generated 100+ registrations.
